

IDSS GLOBAL
International Design & Software Solutions

Delivering
EXCELLENCE
in **ENGINEERING**
SOLUTIONS

Elevating CAD Design Beyond Limits
Creating Innovative and Sustainable Infrastructure for Tomorrow

About IDSS GLOBAL

IDSS Global is a leading engineering design solutions provider, specializing in Civil, Mechanical, Architecture + BIM, Geotechnical, and Lightning Protection services. With over two decades of experience, we have earned a reputation for excellence and innovation in the engineering industry.

Objective:

IDSS Global is a leading engineering design firm that provides cutting-edge solutions to meet the unique needs of our clients. Our expertise spans civil, mechanical, architectural, geotechnical, and lightning protection services. We are committed to providing innovative, high-quality, and cost-effective solutions that contribute to the success of our clients' projects.

Vision:

Our goal is to be the best engineering design firm worldwide, known for our creative ideas, precision, and great service to clients in every field. We take pride in our attention to detail and our dedication to providing top-notch service to clients from various industries, making us a trusted partner in their success.

Our Expertise

- **Civil Engineering:**
Designing robust and efficient infrastructure for diverse projects
- **Mechanical Engineering:**
Providing innovative and energy-efficient mechanical systems.
- **Architecture + BIM:**
Combining creative design with advanced Building Information Modeling
- **Geotechnical Engineering:**
Ensuring stable and safe foundations for complex structures
- **Lightning Protection:**
Safeguarding assets and people from the dangers of lightning strikes

Our Services

Civil Engineering

Our Civil Engineering team brings innovation and practicality to every project, delivering well-designed infrastructure solutions for urban planning, transportation, and more. From concept to completion, we ensure projects are executed seamlessly, meeting the highest industry standards.

Mechanical Engineering:

IDSS Global's Mechanical Engineering experts excel in designing energy-efficient and sustainable systems for buildings and industrial projects. Our focus on cutting-edge technology guarantees optimal performance and reduced environmental impact.

Architecture + BIM:

Combining creativity with precision, our Architecture + BIM division develops captivating and functional spaces. We leverage Building Information Modeling (BIM) to streamline the design process, enhancing collaboration and efficiency.

Geotechnical Engineering:

Our Geotechnical Engineering team provides comprehensive site analysis, foundation design, and ground improvement strategies. We mitigate risks and ensure the stability of structures, even in challenging terrains.

Lightning Protection

Safety is our top priority, which is why our Lightning Protection services safeguard buildings and facilities from the damaging effects of lightning strikes. Our solutions are designed to protect lives and valuable assets.

Information Technology

We provide Digital Marketing, Graphic Design and Signage services for publishing yourself in a smarter way. We have currently partnered with a number of firms across North America in setting up a dedicated team of experts to work for specific clients.

Why Choose Us

Cost Effective

Reliable Team

Customer-Centric Focus

Scalability & Flexibility

24 / 7 Workflow

Increased Efficiency & Productivity

Proudly Certified & Achievements

ISO 9001:2015 Certified:

IDSS Global takes pride in being an ISO 9001:2015 certified company. This internationally recognized certification signifies our commitment to maintaining the highest standards of quality and excellence in all aspects of our operations. The certification reinforces our focus on delivering engineering solutions that consistently meet and exceed customer expectations.

Best Startup Award 2021:

We are honored to have been awarded the prestigious Best Startup Award of 2021. This recognition is a testament to the hard work and dedication of our team in establishing IDSS Global as a leader in the engineering services industry. We are grateful for this acknowledgment and are committed to raising the bar even higher in the future.

Customer Testimonial

“Working with IDSS Global was a game-changer for our project. Their expertise in Civil Engineering and BIM made the entire process efficient and cost-effective.”

- John Smith, Project Manager, USA

“The Geotechnical Engineering solutions provided by IDSS Global ensured the stability of our high-rise development, even in challenging geological conditions. Highly recommended!”

- Sarah Johnson, USA

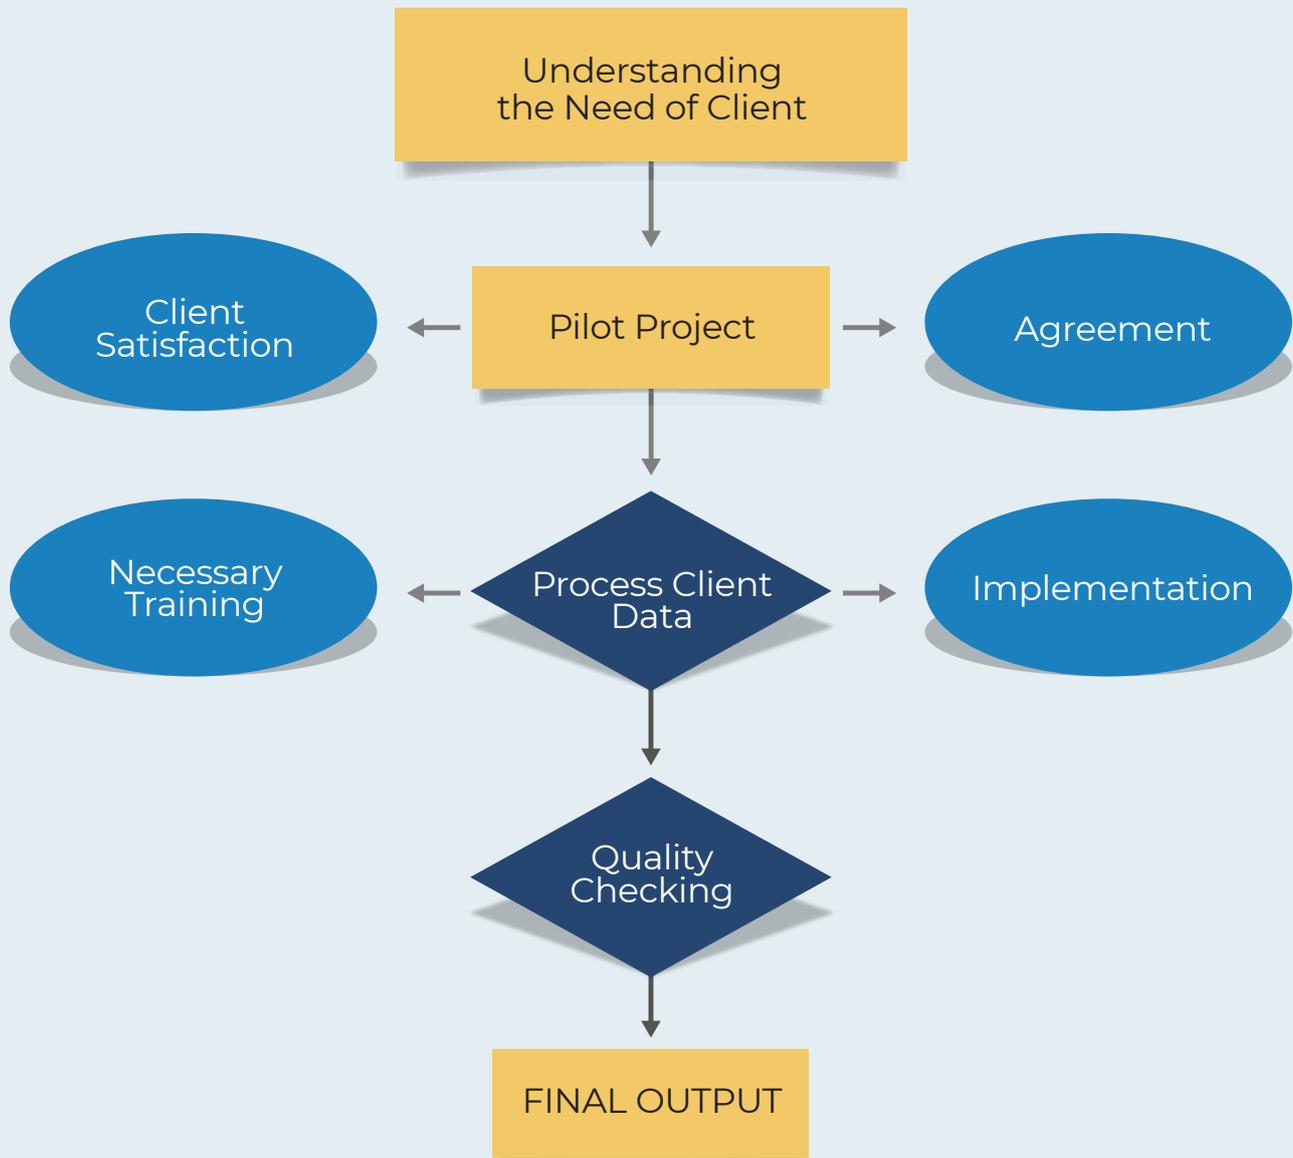

“Your customized solutions exceeded our expectations, delivered with precision and on time, resulting in a resounding project success. Working with IDSS Global has been a pleasure, and we wholeheartedly recommend your exceptional mechanical design services.”

- Kevin C, Canada

“I am thrilled to endorse the remarkable BIM and architectural services we've received. Their expertise and personalized approach have transformed our projects, improving efficiency and delivering stunning, functional designs. Highly recommended.”

- Oliver Anderson, United Kingdom

Engagement Model

Outsourcing to IDSS Global

Advantages of our Engagement Model

-  **Flexibility:**
Choose the contract duration that suits your project requirements best
-  **Scalability:**
Our model allows you to scale up or down as the project demands evolve
-  **Cost-Effectiveness**
Outsourcing eliminates the need for fixed infrastructure costs
-  **Access to Expertise:**
Benefit from our diverse pool of engineering professionals with specialized skills
-  **Time Savings**
Focus on core business activities while we handle engineering tasks efficiently
